Date : 25 July 2020

To : All Tenants of AFFC

Re : Ensure Public Health and Safety

We were notified by a tenant today (25 July 2020) that a tenant staff had contact with a suspected case of COVID-19. As we understand, the concerned tenant staff will suspend from working starting today. The tenant will suspend business for two days and arrange deep cleaning of the unit. To further protect all of our tenants, we have immediately arranged thorough cleansing and disinfection of the public area and facilities. Besides, we will keep the high standard of disinfection work to ensure the environmental hygiene.

We would closely monitor the situation and keep tenants informed of any updates once available. We advise all tenant staff to maintain good personal and environmental hygiene. Please wear surgical mask in public areas to protect yourself and others. Avoid group gathering and keep proper social distance to reduce the risk of transmission. Kindly advise those with symptoms to consult doctors promptly. Meanwhile, if you have staff member undergoing home quarantine or having suspected of COVID-19, please let us know at once so that we can render necessary assistance.

Should you have further enquiries, please contact us at 2237-1398
