Date : 26 July 2020
To : All Tenants of AFFC

Re : Updates on the Earlier Announced Situation on COVID-19

We have closely monitored the updates on COVID-19. Regarding the tenant staff who was regarded as close contact of a COVID-19 case, we would like to update and supplement the following information.

- As we learned from the tenant, i.e. one of the F&B operators, the concerned staff was notified by Centre for Health Protection in late night of 24 July 2020 that a family member was tested positive of COVID-19 after initial test but still waiting for further testing. The staff immediately followed mechanism and reported to the operator who notified our Management Services Office (MSO) about the situation and that the last working day of the staff is 24 July;
- To enhance the protection towards all users, the F&B operator will temporarily suspend business starting from 25 July to 2 August for thorough deep cleaning. It is scheduled to be re-opened on 3 August;
- Our MSO have completed the thorough cleansing and disinfection work of the relevant public areas within 25 July;
- We would continue to enforce company guideline. All MSO staff are required to check and report their body temperature before reporting for duty and wear facemasks while on duty. We have also arranged all MSO staff to undergo viral testing so as to enhance public confidence.

We will keep the high standard of disinfection work to ensure the environmental hygiene and closely monitor the situation. We advise all tenant staff to maintain good personal and environmental hygiene. Please wear facemask in public areas to protect yourself and others. Avoid group gathering and keep proper social distance to reduce the risk of transmission. Kindly advise those with symptoms to consult doctors promptly. Meanwhile, if you have staff member having suspected or confirmed of COVID-19, please let us know at once so that we can render necessary assistance.

Should you have further enquiries, please contact us at 2237-1398.
