KAI SHING MANAGEMENT SERVICES LIMITED

通告  
**NOTICE**

Ref. No. : KS-AFFC/N2020-263  
Date : 2 December 2020  
To : All Tenants of AFFC

**Re : Ensure Public Health and Safety**

To enhance the protection on tenants, we have closely monitored information related to COVID-19 and kept enhancing the cleansing and disinfection work of the building, including the regular cleansing and disinfection of public facilities with disinfectant. We would like to inform the following updates.

We were notified that a person who has just been preliminarily tested positive for COVID-19 had visited AFFC previously. According to the information we received, the concerned individual had taken the shuttle bus from Tung Chung to AFFC at 08:35 on 1 December. The individual also wore facemask during the ride.

To safeguard all shuttle bus users, we immediately arranged thorough disinfection for the concerned shuttle bus. We will also carry out thorough disinfection work at the related public areas of the building for the interest of all people in the Centre. While we are disinfecting the shuttle bus concerned, we will use the other shuttle bus (AFFC to/from Airport) as an alternative to maintain the services for AFFC to/from Tung Chung MTR today.

We would closely monitor the situation and advise all tenants' staff to maintain good personal and environmental hygiene. Please wear facemask in public areas to protect yourself and others. Kindly advise your staff who has symptoms to consult doctors promptly. Meanwhile, if you have staff or having suspected or confirmed of COVID-19, please let us know at once so that we can render necessary assistance.

Should you have any enquiries, please feel free to contact our Phoenix Kwok and Tony Wong at 22371398.
