NOTICE

Ref. No. : KS-AFFC/N2020-272

Date : 16 December 2020

To : All Tenants of AFFC

Re : Ensure Public Health and Safety

To enhance the protection on tenants, we have closely monitored information related to COVID-19 and kept enhancing the cleansing and disinfection work of the building, including the regular cleansing and disinfection of public facilities with disinfectant. We would like to inform the following updates.

We were notified that a person who has just been preliminarily tested positive for COVID-19 had visited the AFFC Extension Site next to AFFC main block previously. According to the information we received, the concerned individual went to the Extension Site only on 3 December 2020 but did not enter the main AFFC building. The individual also wore facemask during the visit.

We immediately arranged thorough disinfection work at the related public areas of the building for the interest of all people in the Centre.

We would closely monitor the situation and advise all tenants' staff to maintain good personal and environmental hygiene. Please wear facemask in public areas to protect yourself and others. Kindly advise your staff who has symptoms to consult doctors promptly. Meanwhile, if you have staff or having suspected or confirmed of COVID-19, please let us know at once so that we can render necessary assistance.

Should you have any enquiries, please feel free to contact our Phoenix Kwok and Tony Wong at 22371398.
